Ease-of-Use

The system is user friendly, prompting the Employer through each entry while maintaining running totals.

- Seamless integration with the ISSI Employer Contribution/ Remittance System
- Gives Employers the ability to upload payroll files
- Interfaces with most third-party accounting software

The screenshot shows a web browser window with the URL <https://ecommerce.issisystems.com>. The page title is "ISSi-Remit". The main header features the text "ISSi-Site" and "Your Organization's Name Here" with a blue and white graphic. Below the header, it says "Home | You are logged in as TEST; Click here to logout." The main content area is titled "Update banking information (optional)" and includes the instruction "Provide banking information for payments via ACH." There is a form for "COUNTRYSIDES NURSERY, INC." with a "1001" label. The form includes fields for "Check Starting Number", "Bank Routing Number", and "Account Number". Below the form, there are input fields for "Bank Transit Routing Number" (with the value 123456789), "Bank Account Number" (with the value 123456), and "Bank Name". A "Submit" button is located below these fields. At the bottom of the form area, there is a link: "If you do not want to enter banking information, [click here to return to your home page](#)". The footer of the page states "This web site is maintained by Innovative Software Solutions, Inc." The browser's status bar at the bottom shows "Internet" and "100%" zoom.

"Our contractors rely on the system's ease of use."

– Fund Administrator

"It is easier and less time consuming."

– Employer

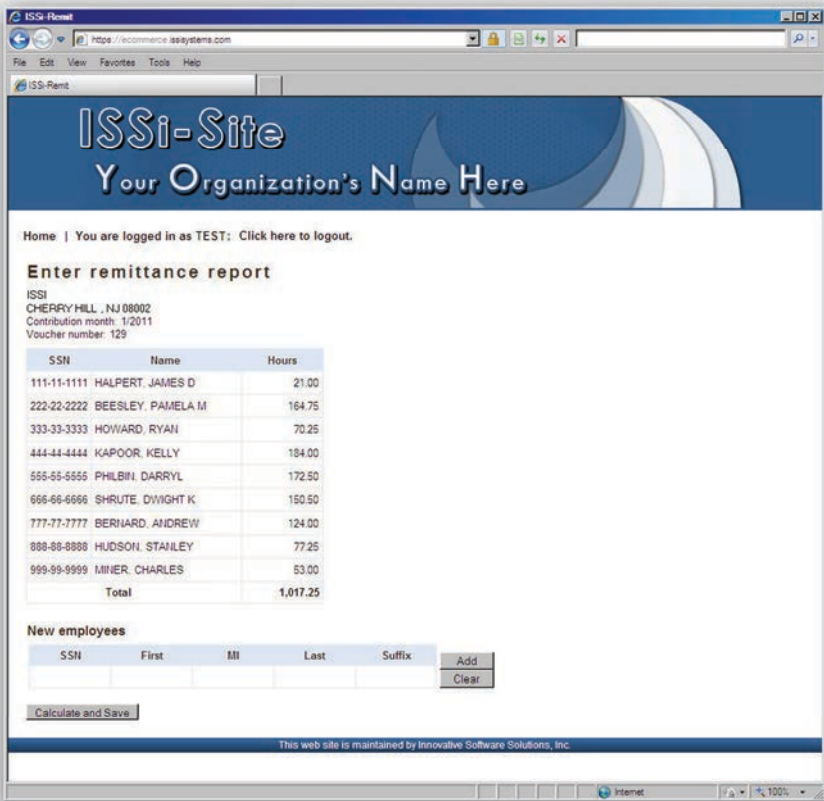

"Employers have remarked how easy the system is to use and have paid particular attention to the reduction in mistakes that were made using the manual remittance reports."

– Fund Administrator

Increased Efficiency

ISSi-Remit eliminates duplicate entry of remittance data and saves time and money for both the Fund and Employers.

- Electronic remittance forms populated with prior reporting period's participant data
- Ability to electronically deposit contributions to the Fund's accounts via wire transfer

The screenshot shows a web browser window with the URL <https://ecommerce.issystems.com>. The page header reads "ISSi-Site" and "Your Organization's Name Here". Below the header, it indicates the user is logged in as "TEST" and provides a link to log out. The main section is titled "Enter remittance report" and displays the following information:

At the bottom of this section is a button labeled "Calculate and Save". A footer note states: "This web site is maintained by Innovative Software Solutions, Inc."

"ISSi-Remit reduces responsibilities in both the Fund Office and Employer Offices."

– Fund Administrator

"As a Benefit Fund Administrator for a large Carpenters District Council, our staff would devote countless hours each month to processing paper remittance forms and checks. With the advent of the ISSi-Remit, our staff spends less time with data entry and more time assisting the membership."

– Fund Administrator

Reduced Errors

Frequently, mathematical errors and omissions occur when contribution forms are manually filled out and mailed from Employers to the Fund Office. ISSi-Remit has been designed to accurately capture, manage and transfer remittance data electronically. To further ensure accuracy, the system automatically calculates monies owed based on current rates and CBAs.

"...I like that your system can figure my totals for me. When I add a new employee, most of the time I know the Social Security Number is incorrect right away."

– Employer

■ How It Works

Enrolled Employers are assigned a unique password that must be used during their login to the ISSi-Remit System. The ISSi-Remit System validates the Employer's name and password before access to the system is permitted. Once the employer is logged into the ISSi-Remit System they can select the remittance reporting period and workmen's class to be entered. ISSi-Remit allows for the addition and/or termination of participants at the time of data entry. The final output of the system is a voucher that can be printed by the Employer and electronically sent to the Fund Office. The Employer has the option to add clear language comments to the electronic voucher, if needed. All data transfers are encrypted, providing maximum security and privacy.

■ A Team to Assist You Every Step of the Way

Our experienced ISSi-Remit Team specializes in implementing electronic remittance systems specific to each organization's needs. The team will work with the Fund, Employers and Financial Institutions to automate your remittance process, providing:

- Custom remittance programming
